Research Interests

- Intuitive Skills Transfer
- Safe Human-Robot Interaction
- Learning and Interpreting Human Activities
- Machine Learning for robotics

Positions

- Assistant Professor at the Department of Computer Science, Intelligent and Interactive Systems, and at the Digital Science Center (DiSC), University of Innsbruck (since January 2020)
- Postdoctoral Researcher at the Department of Computer Science, Intelligent and Interactive Systems, and at the Digital Science Center (DiSC), University of Innsbruck (June-December 2019)
- Postdoctoral Researcher at the Institut of Robotics and Mechatronics, German Aerospace Center (DLR) (2018-May 2019)
- PhD Candidate at the Chair of Human-Centered Assistive Robotics (HCR), Technical University of Munich, Munich, Germany (2012-2017)

Education

Last update: 2021/04/12 09:46

- 2017 PhD in Robotics and Automatic Control Engineering, Technical University of Munich, Munich, Germany
- 2011 MSc in Automatic Control Engineering, Università degli Studi di Napoli "Federico II", Naples, Italy
- 2008 BSc in Automatic Control Engineering, Università degli Studi di Napoli "Federico II", Naples, Italy

Publications

See a complete list or Google Scholar

Teaching

Summer semester 2020

- Machine Learning (VO3 + PS2, Bachelor)
- Data Analysis II: Machine Learning for Data Analysis (VU3, Bachelor and Master)

Winter semester 2020/2021

- Introduction to Robotics (VU3, Bachelor)
- Introduction to Programming: Programming in Python (VU3, Bachelor and Master)

Summer semester 2020

- Machine Learning (VO3 + PS2, Bachelor)
- Data Analysis II: Machine Learning for Data Analysis (VU3, Master)

Winter semester 2019/2020

- Introduction to Robotics (VU3, Bachelor)
- Masterseminar 1 (SE2, Master+PhD) Group 5
