

Senka Krivić

I joined Intelligent and Interactives Systems (IIS) lab in February 2014 as a PhD student. There I am working on a [SQUIRREL](#) project and as a teaching assistant of the prosemiar [Introduction to Intelligent and Autonomous Systems](#). My work is under the supervision of Professor Justus Piater and also advised by [Emre Ugur](#) and [Sandor Szedmak](#)

Previously, I obtained a Bachelor and Master degrees in Automatic Control and Electronics at the Faculty for Electrical Engineering, University of Sarajevo. During my studies, I focused on mobile robotics and intelligent control. My bachelor thesis was “Mobile Robot Map Building” and my master thesis was “Biometric Authentication Based on Artificial Neural Networks”, both under supervision of Professor Samim Konjicija.
