The Austrian Association for Pattern Recognition (ÖAGM/AAPR) invites authors and guests to participate at its 37th annual Workshop, which will take place in Innsbruck on May 23-24, 2013. The workshop provides a platform for researchers and industry to discuss traditional and new areas of computer vision. This year's motto is:

**Pattern Recognition and Computer Vision in Action**

General topics of interest include all aspects of computer vision and pattern recognition including, but not limited to:

- Pattern Recognition on visual and non-visual data
- Object Detection, Recognition and Categorization
- 3D Vision, Stereo and Structure from Motion
- Scene Modeling and Understanding
- Motion and tracking
- Video Analysis and Event Recognition
- Image and Video Retrieval
- Face and Gesture Analysis
- Cognitive Vision
- Industrial Applications
- Safety and Security
- Medical Image Processing
- Statistical Methods and Learning
- Performance Evaluation
- Embedded Computer Vision
- Robot Perception

We solicit full papers of the following types:

- Original, unpublished work
- Consolidated presentations of recent, high-impact achievements
- Mature work in progress by junior researchers

**Invited Speakers**

Jean Ponce (INRIA and ENS, Paris, France)
François Fleuret (IDIAP, Martigny, Switzerland)

**Important Dates**

Submission of full papers: February 28, 2013
Acceptance decisions: April 1, 2013
Camera-ready papers due: April 26, 2013

**Submission, Registration, Venue**

See [https://oagm2013.iis.uibk.ac.at/](https://oagm2013.iis.uibk.ac.at/) for details.

**Chair:** Justus Piater, University of Innsbruck

**Co-Chair:** Antonio J. Rodriguez-Sánchez, University of Innsbruck
